

Accelerating gene therapy
projects from DNA
design to commercial scale

We are a science-driven Contract Development and Manufacturing Organization (CDMO) offering end-to-end viral vector manufacturing solutions.

Your one-stop-shop and innovative partner with cutting-edge scientific expertise

Highly skilled team with 80+ years combined experience

- Demonstrated track record in viral vector manufacturing
- Experienced with multiple AAV serotypes and scales
- Focus on innovation
- Deep understanding of regulatory requirements

End-to-end solutions from R&D to commercial manufacturing

- Scalable platform including analytical solutions
- GMP-compatible processes from early phase, reducing efforts, time and costs in transition from R&D to GMP
- Upstream and downstream process development
- Preclinical AAV vector manufacturing from 0.5 L to 50 L scale
- cGMP scale production up to 1000 L

Customer-centric partner tailored to meet your needs

- Integrated, efficient, and time-saving pathways
- Close collaboration with effective communication
- Continuous development support

Member of the Siegfried network, a globally leading CDMO

- Full access to Siegfried's sterile drug products manufacturing network in US and Europe
- Transformation from a start-up to a best-in-class CDMO
